

THE ULTIMATE IN LIGHTWEIGHT
THERMAL PROTECTION

PROTECTION SYSTEMS

REDUCES SHOCK AND GUARDS
AGAINST THE RISK OF HYPOTHERMIA

▶ **BLIZZARD PROTECTION SYSTEMS (BPS)**

The Blizzard Survival Brand incorporating Reflexcell material has become the new standard in thermal performance in a lightweight compact package designed for the military, emergency preparedness, law enforcement markets, as well as outdoor sports, casualty care, disaster relief, evacuation, medical treatment, and personal. This radical new technology provides maximum warmth and weather protection in the most compact of packages.

Survival Jacket

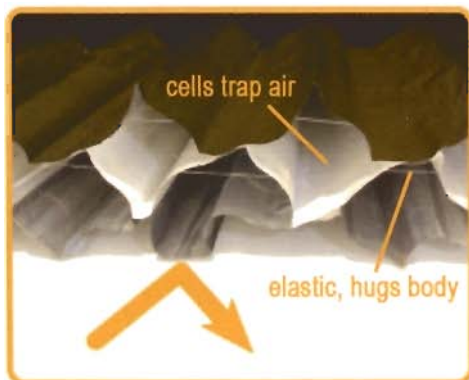

Survival Blanket

Survival Sleeping Bag

▶ **How Does It Work?**

Reflexcell™ products are totally unique: weight-for-weight far warmer than goose down, yet 100% weatherproof, tough, ultraportable and re-usable

Reflexcell™ material, has major advantages over existing materials and is revolutionizing emergency thermal protection.

Reflexcell™ utilizes cellular construction to trap warm air. Its elasticity draws the material to the body and reduces cold spaces and heat loss by convection. Its silvered surfaces block heat loss by radiation. It is also completely waterproof and windproof.

Reflexcell's™ greatest strength is that it can be compressed into the tiniest of packages and stored indefinitely without damaging its performance.

▶ **Benefits:**

- Very warm
- Light weight
- Compact vacuum packaging
- Durable and reusable
- Waterproof
- Windproof
- Versatile
- Adaptable

▶ **Applications:**

- Military - Medics & Soldiers
- First Responders
- Emergency Medical Services
- Law Enforcement
- Disaster Preparedness
- Homeland Security
- Search and Rescue
- Sports and Outdoors

▶ Blizzard Survival Blanket

Part #BPS-01 (military), BPS-04 (civilian)

Description: The Blizzard Survival Blanket is the new standard in thermal protection for casualties. This extra-large blanket wraps around a casualty and seals with a self-adhesive closure. It can easily be reopened for examination of the casualty or medical intervention. It provides total warmth and weather protection associated with our Reflexcell material, reducing shock and guarding against the risk of hypothermia in all conditions.

Specifications

Size packed: Vacuum pack: 7.9 x 4.3 x 1.8 in.

Volume: 0.3 gal.

Weight: 18.7 oz.

Size unpacked: Length 7.7 x 9.8 ft. (fully stretched)

Color: Olive or Silver

Features

- Reinforced edges for maximum strength
- Extra large
- Easy to use resealable self adhesive closure along full length

▶ Blizzard Survival Sleeping Bag

Part #BPS-02 (military), BPS-05 (civilian)

Description: The Blizzard Survival Bag is a full-sized sleeping bag in a pack the size of a video cassette, providing total warmth and shelter - anywhere, at any time. It's made from our unique Reflexcell material, which blocks heat loss more effectively than any other thermal emergency product. The bag also contains elastic, causing it to hug the body, giving a great feeling of warmth and security.

Specifications

Size packed: Vacuum pack: 8.4 x 4.3 x 1.2 in.

Volume: 0.2 gal.

Weight: 12.3 oz.

Size unpacked: Length 6.9 ft.

Color: Olive or Silver

Features

- Top may be closed to form hood
- Fits fully clothed large adult
- Drawcord with spring toggle
- Reusable

▶ Blizzard Survival Jacket

Part #BPS-03 (military), BPS-06 (civilian)

Description: The Blizzard Survival Jacket is a unique garment with a tiny packed size. A hooded body warmer covering the entire torso, made from Reflexcell material enables the wearer to be protected and rewarmed while remaining completely mobile.

Specifications

Size packed: Vacuum pack: 6 x 4.3 x 1.2 in.

Volume: 0.1 gal.

Weight: 8.8 oz.

Size unpacked: Length 3.9 ft. - one size fits all.

Color: Olive or Silver

Features

- Large extended hood protects against wind and rain
- Reinforced arm holes
- Arms may be brought inside and hood closed to form a "mini-tent"
- Elastic lower hem

Performance

Warmth: 8 TOG (thermal resistance) - equal to a medium weight regular sleeping bag.

Weather Protection: Fully waterproof and windproof

Storage: Bags may be stored indefinitely, and are not affected by temperature or moisture, either during storage or in use.

Portability: The bags' small size and light weight make them easy to carry, whether as personal safety equipment, or for rapid deployment in emergencies involving large groups of people.

Reusability: product can be reused many times without loss of performance.
